Project Stage

Completed

Duration

2016

Agricultural Projects & Practices > Cropland Water Savings

This project installed a pivot irrigation system, and included plans for nutrient and water management and planting of a wind break, cover crops and pollinator habitat.

The Resource Conservation and Rangeland Development Program provides low interest loans to landowners for projects and practices that provide conservation benefits. All loans made to borrowers are repaid to the state with interest.

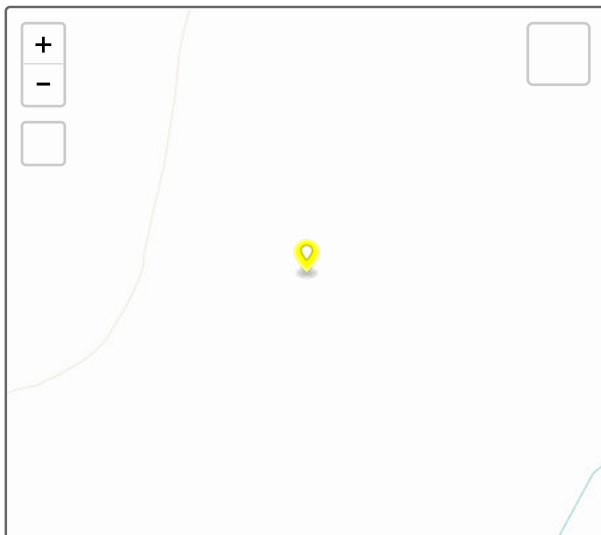

Key Accomplishments

- Irrig. Water Convey. Pipeline - H Press.Und.Plast (linear feet): **1,440.00 lf**
- Irrigation System, Sprinkler (acres): **56.00 acres**
- Plantings (linear feet): **1,940.00 lf**

Project Themes

- Agricultural Lands
- Soils
- Water

Tracker tells stories at a broad-brush level. Individual project performance measures and expenditures should not be relied upon for complete and total accuracy and should be confirmed with a project's lead implementer. Project locations subject to confidentiality provisions under state and federal law specify the location of a local conservation district or USDA service center office.
